

AUTUMN 2025
YOUNG PLANTS & SEEDS

Viola | Primula | Spring & Autumn Bloomers | Spring Trios | Cyclamen | Euphorbia

VOLMARY NURSERIES AND INFORMATION CENTRE

Dear Customer,

We are delighted to provide you with the Volmary Young Plants & Seeds Catalogue for Autumn 2025 along with an optimal overview of the Volmary **Young Plants & Seeds** range to suit the season, making your production planning easier.

We would like to draw your attention to our new **264-cell, reusable seedling tray**. It impresses with excellent plant removal, including by transplanter robots. The sustainable tray can be reused several times. After potting, the empty seedling trays can be stacked. Compressed in this way, the trays have a very low freight volume for the return transport.

Discover our new **Cyclamen Petit Moulin® Mix**, whose double flowers have an original, unique shape. Petit Moulin® Mix flowers very abundantly and impresses the end user with its long durability in cool indoor areas and in autumn planting.

Volmary offers a wide range of **Euphorbias** with the best varieties from well-known growers. The new **Qismas® White** sets standards in the white segment. Their bright, white bracts stand out beautifully from their dark, oak-leaf-like foliage. Due to their well-branched, V-shaped growth, coverage of a high area is possible. **Qismas® White** is also excellently suited for the cultivation of minis and can be marketed quickly, with a response time of about 8 weeks.

Another tip for the coming season is our tried-and-tested **Viola Twix® for Mix**. With **Twix® for Mix**, you get attractive colour mixtures directly in a seedling, for economical cultivation. A special sowing method and tested combinations of varieties ensure even distribution of the flower colours in the pot. Discover attractively composed colour mixtures for every taste.

The **Volmary® garden retail brand**, in colourful pots, is still increasing in popularity. Targeted marketing activities, both online and offline, are aimed at the creation of emotional Volmary® brand experiences. Many gardeners and marketers have recognised the good results that are achieved through this collaborative partnership. Have you already started producing in Volmary pots?

Better products and targeted information are a decisive factor for your success. Our international connections to scientists, plant breeders, producers of seedlings, production nurseries, marketers and the media, provide you with the world's best varieties and first-hand knowledge.

The Volmary online portal, which is available at www.volmary.com, enables you to order seeds and young plants around the clock, view availability and place hassle-free repeat orders, based on existing orders.

The **internal and field employees** of Volmary will provide confidential advice on varieties and cultivation. We encourage you to make use of this offer.

Yours sincerely,
Management and Staff

VOLMARY YOUR INDEPENDENT PARTNER

Volmary GmbH is an independent, medium-sized family enterprise in the horticultural field, and a leading European nursery enterprise. In Volmary, you have a strong, innovative partner for your retail nursery, with carefully developed plant-branding concepts for the horticultural and retail supermarket trades.

Volmary enjoys international success in the following areas:

- Production and sale of vegetatively and generatively propagated **flowers, vegetables, herbs** and young **fruit-bearing plants**
- Propagation and sale of **seeds** (flower and vegetable seeds)
- Sale of **vegetable bulbs**
- **Classical plant-breeding** in the areas of flowers and vegetables
- Management of the **plant-branding concepts, Volmary® Plants** and **Soul Plants®**

Products that meet the highest quality requirements

Volmary Seedling/Young Plant Production uses the latest seeding and greenhouse technology in their production areas. Each production step is accompanied by precise seed-sowing technology and climate control. A computer-controlled quality assurance system enables us to ensure the delivery of only full trays of the highest quality. Thanks to our efficient logistics, you can rely on getting your seedlings within a very short space of time. Our high quality standards guarantee the safe and successful further cultivation of our seedlings/young plants.

Exclusive varieties

New, particularly high-performing varieties are of great importance, in order for you to offer your customers a modern, high-quality selection of flowers and vegetables. At the Volmary Nurseries and Information Centre in Münster, we offer you the ideal opportunities to get to know our new varieties insidout. Through intensive testing of varieties, we are able to provide you with precise, practice-relevant recommendations for cultivation. All of the new varieties are subjected to several years of testing, in the Volmary greenhouses and in our own Volmary test fields, where they are assessed in terms of their suitability for field and bed cultivation.

REFINED ORIGINALS

Good things endure – for your sales success

Trust experience and secure successful sales.
Our refined varieties impress generations of
gardeners.

VOLMARY® PLANT BRANDING CONCEPTS

Convincing strategies also generate an equal measure of added value for production growers, over the entire retail chain, all the way to the end user.

Service, sales support – from the seed, all the way to the plant, Volmary® represents the highest demands and premium quality. The plants are cultivated under license by selected horticultural facilities, and marketed through nurseries. The product quality is decisive: only the best varieties, selected from the professional horticultural industry, make it into the Volmary® selection.

- A fun selection of varieties that sell well!
- Year-round marketing programme
- Fresh, modern design
- Plenty of sales promotion materials for optimum presentation of your Volmary® plants
- Effective multichannel marketing

Profit from the many advantages offered by the world of Volmary® plants!

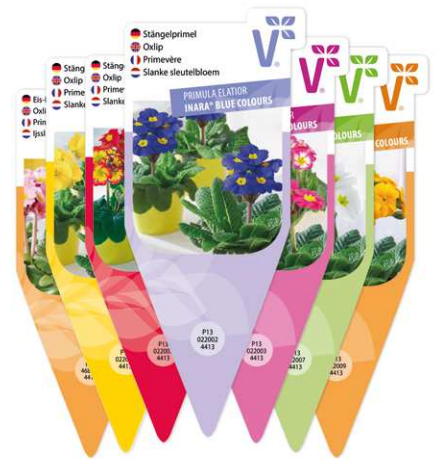

VOLMARY® SALES PROMOTION MATERIALS

The attractive Volmary® sales promotion materials enable optimum presentation of your Volmary®-branded plants, thereby boosting your sales.

Colourful presentation, e.g. CC trolleys can be provided with CC corners, adhesive tape, toppers, sales signage and informative flyers. This assures a cheerful mood at the POS and promotes successful sales. Make use of our wide range of sales promotion materials for the presentation of your Volmary® plants.

Volmary® – Active marketing support

Volmary® Plant World sales promotion is characterised by a multi-faceted marketing concept. Let your sales benefit from a strong, inspiring and informative brand. Gain new customers and improve your sales channels with individual sales concepts and special offers.

POWER FOR YOUR PLANTS WITH MULTIKRAFT®

Effective by nature

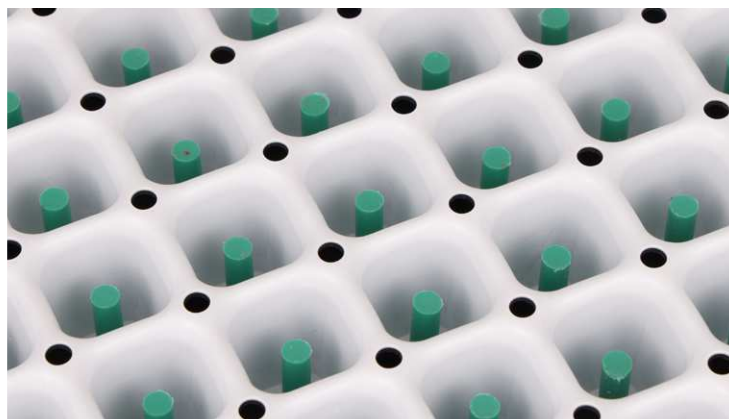

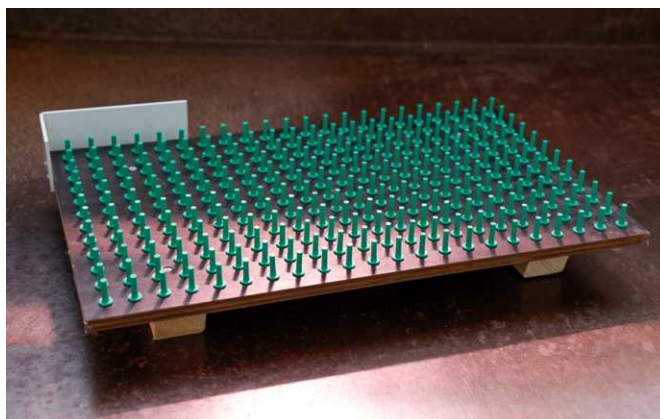

The family-owned company Multikraft® is the leading developer and manufacturer of effective micro-organisms. With the help of this technology, Multikraft® produces ecological products with sustainable benefits for humans, animals, and the environment. Multikraft® works with nature as a model, promotes its regeneration and strengthens natural processes. To advance these processes, we rely on the smallest organisms – microorganisms that underlie all life on earth. The use of Multikraft® plant strengthening agents favours root formation and increases the resistance of plants to soil-borne diseases and pests. Furthermore, they boost germination, flowering, fruits, plant ripening and flower luminosity. This allows reducing or entirely doing away with pesticides.

The All-In-One products **MK Start**, **MK Gemüse** and **MK Blume** are particularly easy to use and prevent fungal diseases and pests. Stable growth and good branching is promoted by regular application via leaf spraying. Multikraft® products have been successfully deployed in ornamental plant and vegetable cultivation for years and offer an excellent opportunity to produce more environmentally friendly products. You can also do gardening with the power of nature.

Your Volmary® contact person will be happy to inform you about Multikraft®.

TRAY 264 – THE NEW-GENERATION REUSABLE TRAY

- Tray compatible with transplanter robots
- Sustainable, as it can be reused several times
- Improved ability to push the plants out
- Increased substrate volume compared to the 336-cell tray (+30%)
- Software programs/key measurements are available for TTA and Visser machines
- After potting, the trays can be stacked together in a space-saving manner and require only a small freight volume for their return trip to Volmary

SPRING TRIO COLLECTION

These harmonious spring-flowering trios are perfectly matched for growth and flowering time, and are a joy to look at with their splendid colours. Here, we combine different types of plants into a single seedling and use our renowned 50 seedling palette trio from our bed and balcony area. Take advantage of this innovative approach. Can also be produced in the Volmary® plant brand concept for your sales success!

- Colourful spring bloom blend with a long flowering period
- Ideal for planting trays and boxes
- In a green 13 cm Volmary® Trio Collection pot

For sale: February to March

HIGH-QUALITY RAW MATERIALS

Directly from our certified locations

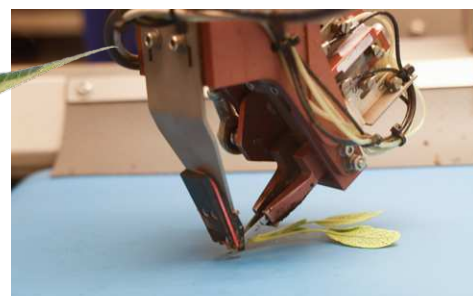

Our seedling production meets the highest quality requirements thanks to state-of-the-art technology and precise climate control. A computer-aided quality assurance system guarantees high-quality seedlings that are delivered quickly and reliably thanks to efficient logistics.

For specialised production companies, we offer unrooted cuttings (URC), which are characterised by standardised preparation and uniformity.

Sustainability is important to us: we continuously optimise our processes in order to use resources responsibly and are committed to the well-being of our staff and the protection of the environment. This is reflected in our ORGANIC and global G.A.P. certification, as well as in the MPS certification of our international locations.

OUR CERTIFICATIONS

OUR
CERTIFICATION

The Fairtrade certification of our mother plant site in Kenya promotes better working and living conditions, as well as environmental protection. The sale of Fairtrade cuttings enables fairer trading conditions, as well as local social and environmental improvements. Strict Fairtrade standards improve social sustainability and protect the environment in the countries of cultivation, such as Kenya.

Allmänna leveransvillkor SW Horto

Gäller fr o m 2024-01-01

§ 1 Allmänt

Nedanstående bestämmelser ska tillämpas om annat inte skriftligen avtalats mellan SW Horto AB (härefter benämnd som "säljaren") och köparen. Det åligger köparen att ange korrekt leveransadress. Anmälan av ny leveransadress skall skriftligen bekräftas av säljaren. Order är inte gällande mot säljaren förrän skriftlig orderbekräftelse lämnats. Det åligger köparen att kontrollera erhållna orderbekräftelse och att inom 7 dagar från mottagandet göra gällande ev. felaktigheter och avvikelser. Säljaren reserverar sig för slutförsäljning och misskörd samt förbehåller sig rätten att byta till närmast liknande sort om sortbyte måste göras.

§ 2 Priser

Leveransdagens grundpriser enligt vid var tid gällande prislistor och kataloger gäller. Priser anges exklusive mervärdesskatt. Kostnad för emballage kan tillkomma vid leverans på annat sätt än på containervagnar eller om annat avvikande emballage måste användas. Angiven offert är bindande för säljaren under 30 dagar räknat från offertdatum, om annat inte skriftligen avtalats. Säljaren äger rätt att i efterhand avträda offerterade och generella kreditvillkor efter kreditprövning av köparen.

§ 3 Frakt och leverans

Leverans sker fritt säljarens lager (EXW enligt Incoterms) eller från annan utlastningsplats som säljaren bestämmer. Vad gäller växande material (inkluderar turf, blomster, grönsaks och bärplanter eller liknande) sker utleverans från olika lagerställen. Säljaren anordnar på köparens risk och bekostnad transport av beställd vara till av köparen anvisad plats. Gällande blomsterplanter och i det fall inget annat avtalats sker frakt på containervagn med av säljaren anvisat åkeri. Reklamation avseende transportskada skall utan dröjsmål anmälas till transportföretaget. Vid leverans med annat transportsätt än ovan angivet avtalas varje försändelse för sig. Leverans från två eller flera platser eller vid en eller flera tidpunkter innebär mer än en sändning. Kran- och trucklossning debiteras kunden. All liftbilslossning av jord skall anges vid beställning. Växande material som är producerat utanför svensk gräns ska genom säljarens försorg vara försett med aktuellt och giltigt plantpass. (Plantpass innebär en garanti för att plantorna genomgått sundhetskontroll och att de är godkända av berörd myndighet i ursprungslandet). Leverans av frigoplanter sker i obruten kylkedja till säljarens lager varifrån leverans sker i ej kylad transport om inget annat avtalats.

§ 4 Risk

Ansaret för att varan av våda förstörs, försämrats eller minskas övergår till köparen när varan avsänts till denne. Om köparen inte kan ta emot växande material vid avtalad leveranstidpunkt svarar säljaren inte för varans kvalitet vid senare leveranstillfälle. I det fall köparen skall avhämta varan övergår ansvaret

till köparen vid den tidpunkt då köparen äger påkalla varans avlämnande och varan hålls avskild och tillgänglig för köparen.

§ 5 Leveransförsening

Köparen äger utan ersättningskyldighet avbeställa försenad leverans eller del av leverans i det fall leveransförseningen överstiger två veckor. Det åligger köparen att utan dröjsmål underrätta säljaren härom när denne anmält leveransförseningen.

Säljaren är utan ansvar för köparens skada på grund av leveransförsening och delvis eller helt utebliven leverans, såvida inte säljaren varit försumlig eller grovt oaktsam.

Ersättning till köparen, inklusive ersättning för produktionsbortfall, utebliven vinst eller annan indirekt skada kan aldrig överstiga varuvärdet. Vid leverans av frö och planter förbehåller säljaren sig rätten att ersätta produkter som inte kan levereras med närmast liknande sort.

§ 6 Fel eller brist i leverans

Det åligger köparen att omedelbart efter leverans undersöka och prova produkten såtillvida detta är rimligt utifrån normal affärspraxis. Avser leveransen växande material skall ev. avvikelser reklameras inom 24 timmar, dock senast påföljande arbetsdag efter mottagen leverans. Övriga reklamationer skall göras inom 7 dagar efter det att leveransen mottagits. Variation i storlek, färg och utseende på växande material kan förekomma beroende på årsmån och leveranstidpunkt.

Säljaren ansvarar inte för felmärkt förpackning från tredje part och det åligger köparen att genom varuprov, förpackningsrester eller liknande styrka fel i vara. Reklamationer avseende sortäktighet, sortenheter eller grobarhet skall göras utan dröjsmål och i så god tid att besiktning kan äga rum på växtplatsen. Efteranalys av frö skall för att godkännas företas genast efter varans ankomst och provtagning skall ske enligt Jordbruksverkets föreskrifter. Köparen äger inte rätt till ersättning för skada på grund av fel eller brist i varan med mindre felet eller bristen kan tillräknas säljaren såsom försummelse. Säljaren ansvarar inte för personskada eller sakskada som orsakas på grund av skadebringande egenskaper (s.k. produktansvar) i levererad vara. Levererad vara, som visas ha varit felaktig vid leveransen, byts ut i mån av tillgång på felfri vara.

Om säljaren inte kan erbjuda ersättningsleverans krediteras fakturabelopp inklusive frakt för den felaktiga varan. Ersättning till köparen, inklusive ersättning för produktionsbortfall, utebliven vinst eller annan indirekt skada, får aldrig överstiga varuvärdet.

§ 7 Force Majeure

Skulle till följd av arbetskonflikt, krig, myndighetsbeslut, omfattande driftstörningar hos säljaren, utebliven, försenad eller förminskad skörd hos säljaren, utebliven, försenad eller reducerad leverans från leverantör eller annan omständighet av vad slag det vara må utanför säljarens kontroll (s.k. Force Majeure),

säljarens möjlighet att fullgöra leverans hindras eller avsevärt försvåras äger säljaren frånträda detta avtal utan att då ansvara för skada eller förlust som kan uppstå för köparen till följd härav.

§ 8 Annullering

Köparen äger rätt att annullera bekräftande order fram till förbeställningstidens början. Annullering efter förbeställningstidens början godkänns inte.

§ 9 Myndighetsbeslut

Om det sedan avtal slutits inträffar valutakursförändring, äger säljaren rätt att justera priset i motsvarande mån. Motsvarande gäller beträffande myndighet beslutade förändringar av skatter, avgifter och priser. Säljaren äger rätt att i motsvarande mån justera priset utan föregående avisering.

§ 10 Betalningsvillkor

Köparen skall erlägga betalning enligt de villkor som överenskommits vid avtalets ingående. Efter förfallodatum utgår dröjesmålsränta på fakturabeloppet utgörande vid var tid gällande referensränta + 10 procentenheter. Eventuella anmärkningar på fakturan skall göras gällande inom 7 dagar. Eventuella motfordringar kan endast göras gällande om de godkänns av säljaren eller fastställs i domstol. Säljaren förbehåller sig rätten att debitera en administrativ avgift på order understigande 2000:-.

§ 11 Ägandeförbehåll

Godset förblir säljarens egendom till dess att fullständig betalning erlagts för alla i avtalet reglerade fordringar – inklusive eventuella kostnader, skatter och dröjesmålsräntor.

§ 12 Tillämplig rätt

I det fall inget annat skriftligen avtalats mellan parterna skall svensk rätt tillämpas.

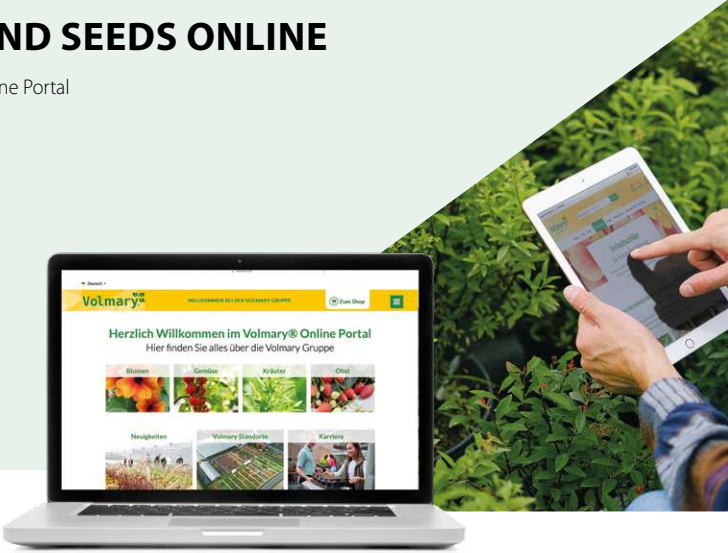

SIMPLY ORDER YOUNG PLANTS AND SEEDS ONLINE

As a Volmary customer, you have the exclusive option of using Volmary Online Portal

Benefits at a glance

- Order seeds and young plants around the clock
- View current availabilities at any time
- Current product and variety information
- Direct query of prices
- Download and view catalogues
- Insight into your order history – direct and easy re-ordering
- Mobile access, from any location, even directly from your greenhouse

VOLMARY ORGANIC PRODUCTS FOR YOUR SUSTAINABLE PRODUCTION

Volmary offers you a wide range of organic vegetables, herbs and fruit – and organic flowers are also available to you by arrangement. You will receive the full selection of organic young plants, organic cuttings (URC) and organic seeds. We supply unrooted organic cuttings from our EU-certified organic mother plants. With Volmary's large selection of organic products, you can optimally plan your range for sustainable organic production.

And additional offers, such as Multikraft® products, support you implementing a sustainable approach to your production. Please contact us, and we will be happy to tell you more.

KEY

Symbol	Meaning	Symbol	Meaning	Symbol	Meaning
	Seed requirement / 1000 plants		Protected variety		Climbing growth habit
	Sowing period (month)		as needed		Vigorousness (1 = very compact to 5 = fast-growing)
